

Continued from page 1.

The specimen of the gem ever discovered was unearthed in the mines of Hungary in 1770, and purchased by the Austrian Government. Its weight was seven ounces, and it was three and three-quarter inches in length. It rests in the Imperial cabinet at Vienna, and is valued at \$300,000. The opal is not sold by weight, but its value depends upon its size and the intensity of its fire and combination of colors. An opal half an inch in diameter may have a value of five dollars, and another, no larger, but possessing brilliancy of hues, may sell readily for \$5,000 or more.

One of the prettiest combinations in the jeweler's art is the opal surrounded with diamonds. The foolish prejudice and dark superstitions are rapidly dying out, and the value of the gem, which had reached low-water mark during its banishment, has increased fully thirty per cent. During the last two years the trade and demand in the gem have increased at a rapid pace, and ten times as many opals are imported now as during the preceding decade.

Fifteen years ago the popularity of the stone began to wane, until scarcely one was to be seen at a fashionable gathering. Many ladies who were above being swayed by superstitious fancies admitted they held indefinable prejudices against the fiery, gleaming combination. It is the jewel of October, and all born in that month may safely stifle all fears they may entertain regarding it, and wear the opal with impunity.

FIRST SLEEPING CAR.

It was invented by Theodore T. Woodruff in 1854.

The first sleeping car was invented by Theodore T. Woodruff, who got up his model in the office of James Tillinghast, at Rome, N. Y., in 1854, the latter being at that time in the service of the Rome & Watertown railroad. Mr. Woodruff endeavored to interest Mr. Tillinghast sufficiently in his invention to advance the cost of securing a patent from the Government, but he did not have sufficient faith in its possibilities and declined. It was while in a sort of dazed condition of mind resulting from being knocked off the top of a freight car by an old-fashioned inclosed bridge that Mr. Woodruff conceived the idea of a sleeping car. The model which he constructed in Mr. Tillinghast's office was carried to Springfield, Mass., in an old-fashioned bandanna handkerchief and submitted to Mr. Watson, the car builder, who, notwithstanding an almost universal expression of disapproval by his employees, built a trial car, which made its first trips on the New York Central and Rome & Watertown railroads, and later was taken to Cleveland, Cincinnati and other Western cities.

The car afterwards became the property of the Ohio & Mississippi Railroad Company, on whose line it was regularly run. Woodruff sold the right to build and use his sleeper on the New York Central railroad to Mr. Webster Wagner and on the Buffalo & Erie road to Mr. George Gates. The "Gates" sleepers ran from 1859 to 1873, when they also passed into Wagner's hands. Pullman sleepers were introduced in 1864 or 1865, he having made a number of important improvements on the productions of his predecessors. It was about 1862 that Wagner and Gates built their first car, having the same general features as those now used.—Railway Age.

JAMES MEANS' \$3 & \$4 SHOES

"Competition is the Life of Trade," and if you have not seen our latest improved goods you cannot imagine how lively trade is, or how hard our competitors have to work to keep within sight of us. Ask your retailer for the James Means' \$3 Shoe, or the James Means' \$4 Shoe according to your needs.

Positively none genuine unless having our name and price stamped plainly on the soles. Your retailer will supply you with shoes so stamped if you insist upon his doing so; if you do not insist, some retailers will coax you into buying inferior shoes upon which they make a larger profit.

Such has been the recent progress in our branch of industry that we are now able to affirm that the James Means' \$4 Shoe is in every respect equal to the shoes which only a few years ago were retailed at eight or ten dollars. If you will try on a pair you will be convinced that we do not exaggerate. Ours are the original \$3 and \$4 shoes, and those who imitate our system of business are unable to compete with us in quality of factory products. In our lines we are the largest manufacturers in the United States.

Shoes from our celebrated factory are sold by wide-awake retailers in all parts of the country. We will place them easily within your reach in any State or Territory if you will invest one cent in a postal card and write to us.

Application for a Patent

No. 763.

UNITED STATES LAND OFFICE,
Eureka, Nevada, May 28, 1889.

NOTICE IS HEREBY GIVEN THAT THE Pay-Day Gold and Silver Mining Company, whose post office address is San Francisco, California, has this day filed its application for a patent for Fourteen hundred and eighty-nine linear feet of the Pay-Day mine or vein bearing silver, with surface ground six hundred feet in width, situated in Jackrabbit Mining District, County of Lincoln, and State of Nevada, and designated by the field notes and official plat on file in this office as Lot No. 30, located upon unsurveyed land. The exterior boundaries of said Lot No. 30 being as follows, to-wit:

Beginning at a post marked No. 1, U. S. survey No. 30, from which U. S. mineral monument No. 1 bears N. 48 deg 45 min E. 343 feet. The stone-tops of Day Mining Company's office bears N. 86 deg 45 min E. 340 feet, and the monument of Pay-Day bearing-silver bears S. 21 deg 45 min E. 550 feet. Thence, 1st course, S. 74 deg 45 min E. 600 feet, to post marked No. 2, U. S. survey No. 30, and post No. 1 of U. S. survey No. 37, said posts being identical with the northeasterly corner monument of the Pay-Day location, from which the northwesterly corner monument of the Pay-Day location, westerly corner of the Pay-Day location, Thence, S. 38 deg 30 min W. 487 feet, to a point on the westerly line of U. S. survey No. 39; thence, N. 35 deg E. 560 feet, to post No. 1, U. S. survey No. 39, and thence, S. 74 deg 45 min E. 600 feet, to post No. 2, U. S. survey No. 39, and the place of beginning. Containing an area of 83-100 acres of land. Which tracts being excluded from this survey leaves remaining an area of 18-23-100 acres of land.

Magnetic variation 16 deg East.
The location of this mine is recorded in the Recorder's Office of Lincoln County, Nevada, in Book of Mining Notices. The mine is bounded on the east by the Jackrabbit mining claim, and on the north, west and south by no known claims. Any and all persons claiming adversely any portion of said Pay-Day mine or surface ground are required to file their adverse claims with the Register of the United States Land Office at Eureka, in the State of Nevada, during the sixty days period of publication hereof, or they will be barred by virtue of the provisions of the Statute.
F. H. HINCKLEY, Register.

Application for a Patent

No. 707.

UNITED STATES LAND OFFICE,
Eureka, Nevada, February 3, 1889.

NOTICE IS HEREBY GIVEN THAT J. W. St. Carlisle, whose post office address is Philadelphia, Fresno County, has this day filed his application for a patent for one thousand (1000) linear feet of the Thompson Mine or vein bearing silver, with surface ground three hundred and twenty-three (223) feet in width, situated in the State of Nevada, and designated by the field notes and official plat on file in this office as Lot Number Fifty-five (55), located on unsurveyed land. The exterior boundaries of said Lot No. 55 being as follows, To-wit: Beginning at a post marked No. 1, U. S. survey No. 55, at the southwest corner monument of this claim, which monument is on the western boundary of the Wyandotte Lodge, from it Post No. 1, U. S. survey No. 4, V. S. survey No. 54, 54 deg 48' 00" E. 480 feet, and the working shaft on this bore bears north 61 deg 45' 00" E. 178 feet. Thence running, 1st course, north 30 deg west 1000 feet, to a post marked No. 2, U. S. survey No. 55, at the northeast corner monument of this claim; thence, 2d course, south 54 deg west 323 feet, to a post marked No. 3, U. S. survey No. 55, at the northwest corner monument of this claim; thence, 3d course, south 20 deg east 1000 feet, to post marked No. 4, U. S. survey No. 55, at the southeast corner monument of this claim, which monument is on the western boundary of the Wyandotte Lodge, from it Post No. 1, U. S. survey No. 4, V. S. survey No. 54, 54 deg 48' 00" E. 480 feet, and the working shaft on this bore bears north 61 deg 45' 00" E. 178 feet. Thence running, 1st course, north 30 deg west 1000 feet, to a post marked No. 2, U. S. survey No. 55, at the northeast corner monument of this claim; thence, 2d course, south 54 deg west 323 feet, to a post marked No. 3, U. S. survey No. 55, at the northwest corner monument of this claim; thence, 3d course, south 20 deg east 1000 feet, to post marked No. 4, U. S. survey No. 55, at the southeast corner monument of this claim, which monument is on the western boundary of the Wyandotte Lodge, from it Post No. 1, U. S. survey No. 4, V. S. survey No. 54, 54 deg 48' 00" E. 480 feet, and the working shaft on this bore bears north 61 deg 45' 00" E. 178 feet. This claim is bounded on the south by the Wyandotte Lodge.

The location of this mine is duly recorded in the Recorder's Office of Fresno County, California, in Book B, pages 114 and 115, of Mining Records. Any and all persons claiming adversely any portion of said Thompson Mine or said mining ground as hereinbefore described, are required to file their adverse claim with the Register of the United States Land Office at Eureka, in the State of Nevada, during the sixty days period of publication hereof, or they will be barred by virtue of the provisions of the Statute.
